At this stage, your practice has grown, and you wonder if you are doing everything you can to achieve your full growth potential. You may want to take your practice to the next level but may not know how to effectively manage this growth. A trusted business advisor can help you answer important questions, including:

- How do I control costs and manage cash flow along with my other finances?
- How do I grow the business?
- How do I minimize taxes?
- When and how do I attract other doctors to the practice?
- What are my priorities for work / life balance?

Mature Practice

As a well-established veterinarian, you have managed your operation successfully for many years and it may be time to explore your next move. At this stage, you might have a number of questions such as:

- What are my retirement needs? Does the value of my practice meet those needs?
- How do I maximize the value of my practice?
- What is my succession plan?
- When do I want to retire? What will that look like?
- Will my family be looked after?

By understanding your needs, we can help you determine what success looks like to you today, five years from now, 20 years from now, and when you retire.
