

## **MNP Corporate Finance**

### **Close the deal with confidence**

Whether you're selling, buying, merging, financing, or investing in a company, all transactions carry high stakes and require diligent planning. At every stage, you require innovative and effective corporate finance solutions tailored to your specific needs.

#### **Transactions on your terms**

At MNP Corporate Finance, we provide industry-leading transaction and merger and acquisition services to Canadian companies in every industry and sector of the economy. We work primarily with private companies that have an enterprise value of \$3 million to \$300 million and capital needs of \$10 million and up.

With offices strategically located across Canada, our professionals bring a wealth of experience, knowledge, and integrity to every transaction.

We dedicate the time necessary to fully understand your company, and its unique value within the sector you operate in, while drawing on our vast network of domestic and international contacts to help you achieve your business goals. We act on your side of the negotiating table at every phase, so you can close the deal on favourable terms.

#### **Full array of services**

##### **Divestitures**

From planning to closing, we ensure your divestitures are executed efficiently, and that you receive maximum value.

##### **Due diligence**

We provide the tools and knowledge you need to make strategic investment decisions, avoid risks, and negotiate the best deal possible.

##### **Acquisitions**

We work alongside you to develop a strategy, identify targets, and manage the transaction process from a position of strength.

##### **Transaction advisory services**

We help you navigate all transaction types at every stage, and provide you with a sounding board when making crucial decisions for your business.

##### **Financing**

Our professionals open the door to a range of financing options, communicate with lenders on your behalf, and help you determine the best path forward.

Transactions can be career-defining moments. In today's complex and evolving financial markets, with the accompanying risks and regulatory hurdles, you need the right team behind you to execute deals with peace of mind.
