# About This Checklist

This checklist is intended to present the reporting requirements (as denoted by “PS” references) for annual financial statements of public sector entities prepared in accordance with Public Sector Accounting Standards (PSAS). If your entity’s unique circumstances might require additional disclosure, the CPA Canada Handbook should be consulted to ensure complete and accurate disclosure. Individual entities should also tailor their disclosures to reflect the materiality of the items concerned. This checklist should be evaluated in conjunction with *Financial Statement Presentation* (Section PS 1200/1201 under PSAS)<sup>1</sup> and is not a substitute for the exercise of professional judgment and knowledge of authoritative pronouncements.

This checklist reflects the PSAS standards that have been issued as of December 31, 2020 and those standards that are required to be applied from the perspective of an entity with a fiscal year beginning on January 1, 2020. If the entity’s reporting fiscal period commenced before January 1, 2020, please refer to MNP Public Sector Financial Statement Presentation and Disclosure Checklist – December 31, 2019 edition for appropriate disclosure requirements. Any disclosure requirements for standards effective after January 1, 2020 are differentiated by an “[EARLY ADOPTION]” note and related footnote. It is possible that standards could be amended after December 31, 2020. Any such changes and additional requirements would need to be considered when preparing financial statements in accordance with PSAS. Accordingly, this checklist should not be used as a substitute for referring to the standards themselves.

<sup>1</sup> PS 1201 *Financial Statement Presentation* replaces PS 1200 *Financial Statement Presentation*, effective for annual financial statements relating to fiscal years beginning on or after April 1, 2022. For those government organizations that applied the CPA Canada Handbook – Accounting prior to their adoption of the CPA Canada Public Sector Accounting Handbook, PS 1201 applies to fiscal years beginning on or after April 1, 2012. Early adoption is permitted, but only if PS 2601 *Foreign Currency Translation* and PS 3450 *Financial Instruments* are adopted at the same time.

Text boxes may be used to make working paper references if needed, or to provide explanations if items were or were not disclosed. The options “Yes, No, and NA” are available in the right-hand column, and should be used as follows:

NA – This option should be selected when the disclosure is not applicable.

Yes – This option should be selected when the disclosure is applicable and included in the financial statements.

No – This option should only be used for immaterial disclosures OR when a disclosure IS applicable to the entity and the item has NOT been disclosed (in most cases this will be a departure from generally accepted accounting principles (GAAP)). An explanation of why “No” was selected should be provided in the text box immediately following the item.
