

Mechanical Detailer

(Langley, BC)

\$70,000-\$90,000

LE Steel Fabricators Ltd. proudly provides custom structural steel fabrication services for BC's marine and heavy civil industries. L.E Steel Fabricators is based in Langley (267th Street) with easy access to the Trans-Canada Highway. A member of the BM Group of Companies, LE Steel Fabricators is family-owned and provides construction solutions in multiple industries, from real estate development, construction support services, and materials supply to structural support and waterproofing. The BM Group cares about its people and believes that each unique person enriches its culture and environment. The BM Group thrives on collaboration and knows that when they work together, they are stronger together.

As a Mechanical Detailer, you will estimate projects and assist with producing detailed fabrication drawings that specify the exact details required for fabrication and welding for each individual assembly of a job, as well as the breakdown of each assembly into its component parts.

Key Responsibilities

- Develop a deep understanding of our strategic products and the scenarios in which they are a good fit for customers
- Collaborate with the Management team and Shop Foreman daily regarding current and upcoming projects
- Develop and prepare estimates and engineering drawings from preliminary concepts, sketches, engineering calculations, specification sheets and other data
- Work with estimating goals and deadlines and cope with a wide variety of project requests simultaneously
- Complete shop drawings, show material specifications, member sizes, all required dimensions, welding, bolting, surface preparation and coating requirements
- Clearly detail and check drawings for shop construction and execution of projects
- Create and maintain strong business relationships with the industry while promoting LE Steel
- Interface with clients, be a point of contact and ensure project expectations are clear
- Be an active part of the project management team to order materials, complete job reports and perform other ad-hoc tasks as required
- Arrange for shipping or delivery of completed projects, when required
- Lead by example to support a positive Health & Safety culture

Skills and Qualifications

- Minimum 2 years of AutoCad 2D experience in a manufacturing environment

- Post-secondary education in mechanical engineering or other related program
- Background in steel fabrication/engineering/drafting/welding is an asset
- Strong English communication skills – oral and written
- Good attention to detail
- Self-motivated with good organizational and time management skills
- Ability to work accurately under pressure
- Adaptable to a flexible work schedule when required to meet deadlines
- Ability to work with others as a team
- Good understanding of fabrication methods, welding symbols and procedures
- Proven customer service skills and abilities
- Driver's License and own vehicle

Working Conditions:

- Ability to multitask and prioritize in a fast-paced environment
- Office environment with some fabrication shop exposure. This is not a work-from-home opportunity
- May be required to work outside of regular work hours on occasion to meet the needs of the business

This role is best suited for an experienced Mechanical/CAD detailer who is looking for an established company that has plans and ambition for growth. In addition to a competitive salary, LE Steel Fabricators offers three weeks' vacation, matching RRSP, comprehensive benefits and an education allowance.

If you have the demonstrated background and are eager to take a critical role in a growing company, we invite you to forward your resume to laise.sato@mnp.ca. We appreciate the interest of all candidates; however, only those selected for an interview will be contacted. We'd like to ask all applicants to apply through the official process managed by MNP and to avoid speculative approaches.

The BM Group is committed to equity, diversity, and inclusion in its recruitment and hiring practices and welcomes Indigenous persons, newcomers, and persons with disabilities to apply for their opportunities.
